

My Company D.O.G.E.

blockchain auctions and tenders with
escrows and
a.i. assistants saving your time

Problems to Solve:

**Not transparent
results of
tenders**

**Not secured
transactions
by 3rd party**

**Wasted time
preparing paperwork
and analyzis**

Negative result of such situation:

Just in Poland “240 296”
economic crimes in 2024.

increase in economic crime by 6.1% in 2024

No way to retrieve

Less than
1/10 was
retrieved
of lost
money in
economic
crimes

Negative result of
such situation:

case study of building little
playground in neighbourhood

5-16 weeks of paperwork

Solution

– My Company D.O.G.E.

A.I.

**Assistants to
help scrape
data about
auctions &
tenders**

A.I.

**Assistants to
help prepare
documents for
tenders**

**Transparent
auctions &
tenders
results
with tracking
of assets**

HOW it WORKS

HOW it
WORKS

blockchain

SECURE
TRANSACTIONS

SEE WITH OWN
EYES THERE
ARE MONEY
FOR PAYOUTS

A.I

SAVE TIME
HAVE MORE OCCASIONS to EARN

HOW it WORKS

Desired flow
requires that
deposit for
auction is on
blockchain ,
when service
providers have
public profiles
and are
categorized,
**we know where
money goes**

A.I. & ML
scrape data from
auctions of your
type you receive
a set of:
a) templates of
agreements ,
b) average
prices,
c) time schedules

use
community
and
platform
ESCROWS
to protect
your
money

Using technologies:

Public blockchain provides needed transparency and cash

smart contracts on blockchain for auctions with known profiles of companies
to have immutable track of achievements

A.I. also **LLM** s under (consideration training of
own **bielik**)
for agreements templates generation

In clouds **Machine Learning** and data aggregation from
documentation of past tenders. Provides knowledge about
average prices, time estimation and other typical
parameters.

Why now ? The winds

available stable coins capable to cover big transactions

MiCA – more transparent
transactions will be enforced

TECHNICAL MATURITY of **Blockchains** and **A.I.**
technology capable to deliver solution covering
needs of growing tender markets and auctions

real world assets Tokens getting law frameworks

Why are we the ones to do it?

- Successfully launched over twelve blockchain projects in past 8 years
- Team of Solana and Ethereum developers.
- Preaching blockchain and making events is our hyde side .
